Solinst®

3001 Levelogger Series: Hardware Compatibility

Recommended Software & Firmware Configurations

Levelogger Software & Firmware

Solinst always recommends using the latest software and firmware release. Current releases can be downloaded at any time, free of charge, from the Solinst web site at: http://www.solinst.com/downloads/.

NOTE:

Solinst always recommends that our customers download the data from their Leveloggers, using the same Levelogger Software version they were originally programmed with.

Example: If a Levelogger Gold unit was programmed using Levelogger Software 3.4.1, Solinst recommends first downloading the data from your Levelogger Gold using Levelogger Software Version 3.4.1 and barometrically compensating the data in that version first, before upgrading your Levelogger Gold and PC Software to the latest version. After successfully retrieving the Levelogger data and barometrically compensating the data (if desired), you can then proceed to upgrade your Levelogger firmware and PC Software to the latest version.

Operating System Requirements

Levelogger PC Software Versions 4.2.0 and up are compatible with Windows 7, 8, and 10.

Levelogger® Model 3001	**PC Software**	**Firmware**	**Solinst Levelogger App**	**Leveloader Firmware**	**DataGrabber Firmware**	**SDI-12 Firmware**
3001 Levelogger Edge	4.2.0 Note: Includes Firmware Upgrade Utility Version 1.2.7	3.003	3.0.1 iOS 8, or later Download on the **App Store** 1.1.0 Android 4.4 or higher GET IT ON **Google play**	2.002 Note: Use a fully charged 9V battery in your Leveloader during upgrade. A depleted battery may cause a communication interruption.	1.001 Note: Not user-upgradable.	2.000 Note: Not user-upgradable.
3001 Barologger Edge						
***3001 Junior Edge**						
3001 LTC Junior		2.005				
3002 Rainlogger Edge		3.001				

Note: Always use the latest Levelogger Software version to install the latest Firmware versions, unless otherwise stated.

Levelogger Accessories

Direct Read Cables, Optical Readers, Well Caps and other accessories are compatible with all versions of the Levelogger and Rainlogger Models. For information on the complete list of accessories available, please visit www.solinst.com

Previous Levelogger Versions

Levelogger® Model 3001	PC Software	Firmware	Solinst Levelogger App	Leveloader Gold Firmware
3001 Levelogger Gold				2.002
3001 Barologger Gold	4.2.0	2.007	3.0.1 iOS 8, or later	
***3001 Junior**			1.1.0 Android 4.4 or higher	
3002 Rainlogger		2.000		**Note: Use a fully charged 9V battery in your Leveloader during upgrade. A depleted battery may cause a communication interruption.**

*Note: The Levelogger Junior looks very similar to the new Levelogger Junior Edge. To determine the difference, if the fourth number in the serial number is 1, it is a Levelogger Junior; if the fourth number is a 2, it is a Levelogger Junior Edge.

Software/Firmware Upgrade Notes:

- **To upgrade Levelogger Gold or Barologger Gold Firmware from 1.017 or higher, use the latest Firmware Upgrade Utility, which comes with the latest Levelogger Software version.**

- **To upgrade Levelogger Gold or Barologger Gold Firmware from 1.016 or lower, please contact Solinst.**

- **If you are programming Leveloggers using Levelogger Series Software 3.4.1, you must use Leveloader Firmware 1.200.**

- **Levelogger PC Software Version 3.4.1 is compatible with Windows 98, 2000, XP and Windows 7.**

- **SDI-12 Cables sold after November 1, 2013 are compatible with all Leveloggers and Rainlogger Models with latest firmware.**

3001 Mini LT Levelogger

Note: The previous version of the Levelogger LT (Mini-Silver) and the LTC (Black Zirconium Oxide) are still compatible with all of the Solinst communication cables, except the SDI-12 Cable and the Levelogger App Interface. These Levelogger's are compatible only with Levelogger PC Software 3.1.1 with Windows 98, 2000 or XP, and Leveloader Firmware 1.000.
